

Fowler's Pharmacy is not your average big-chain, on-every-corner drug store. In fact, it's the only one of its kind. And it's everything those other aren't. From the moment you walk in, you get the sense of being in a pharmacy from the good ol' days...back when customer service really meant something.

The way we see it, if we're going to call ourselves a family pharmacist, then we better treat everyone who walks in the door like family. In every way possible. That's why we still offer those "long-gone" options like home delivery. Charge accounts. And on-site compounding by 4th generation pharmacists. It's how we've been doing business since we opened back in 1947, and the reason we filled over 1.5 million prescription orders last year alone.

Fowler's is an icon in the sunglasses world. And one of the top retailers in the world for the brands we carry. It sounds weird, we know, but this little family-owned pharmacy was one of the very first places in the country to start carrying designer sunglasses. And right away, sales took off. This unprecedented success had all of the most renowned sunglass companies vying for our limited shelf space. Which means we're able to offer the best selection and pricing on the best sunglasses in the world. Like Costa Del Mar. Ray Ban. Oakley. Ocean Waves. Maui Jim. Bolle. And so many more.
